

Course Title: Concussion 109 – Neuropsychological Screening of Sport-Related Concussion

Course Description: Neuropsychological assessment is a key component of the multidimensional approach recommended by international consensus guidelines for evaluation of athletes affected by sport-related concussion (SRC). Over the past 2 decades, a number of conventional and computerized neuropsychological test batteries have been developed for the assessment of SRC. Standardized neurocognitive assessment tools are now commonly used across the continuum of concussion care, ranging from the sports sideline to critical care setting and the outpatient concussion clinic. We provide a brief, high-level overview of current approaches to best practice in neuropsychological assessment of SRC.

Target Audience: OT / OTA and other healthcare professionals

Course Type: Video vs. Text-based

Educational Level: Beginner, Intermediate, Advanced

CE Hours: 1 contact hour / .1 ceu

Course Prerequisites: None

Course Instructor: Brown, MS, OTR/L, CHT

Learning Objectives:

- Describe the importance of neuropsychological screening in sport-related concussion
- Discuss the role of the neuropsychologist in the screening process of sport-related concussion
- Outline and define conventional approaches to neurocognitive testing vs computerized neurocognitive testing as it relates to sport-concussion
- Discuss the role of the neuropsychologist after sport-related concussion
- Compare and contrast the assessment of sport-related concussion in various stages including baseline, acute post injury and subacute and chronic assessment

Agenda:

Hour #1

Key points

Introduction

Key role of the neuropsychologist

1. Conventional Approaches to Neurocognitive Testing

2. Computerized Neurocognitive Testing

The role of neuropsychology after sport-related concussion

1. Baseline Neurocognitive Testing

2. Acute Postinjury Assessment

3. Subacute and Chronic Assessment

Summary

Course Completion Requirements:

A passing score of 100% is required for course completion. You will have as many attempts as needed until your passing score of 100% is achieved. Upon successful completion of course and completing a satisfaction survey, you will receive your certificate of completion.

Additional Course Information

Course Registration: Register for Free at www.OnlineCE.com. Once registered, you can begin to purchase courses. Contact info@onlinece.com for special needs requests and assistance.

Refund Policy: There will be no refunds for courses taken at OnlineCE.com or monies deposited into My CE Bank. Any money on account will be used for taking future courses. If you start a course in error, or if you are dissatisfied with a course, please contact us in the first part of the course and we will void the course and you can select a replacement course.

Cancellation Policy: Only available courses are offered online and on-demand and available for purchase. No registration fees are collected for courses that are not provided on-demand. Due to the online and on demand format, courses are not cancelled.

Course Date and Location: This is an independent course that is available 24/7 on-demand at www.OnlineCE.com.

Required Materials and Equipment: Courses offered on OnlineCE.com can be accessed on any type of computer or device. No special software is required but we do recommend the use of the Chrome Browser (recommended, not required). All course materials are contained within the courses and no prerequisites are required.
