

Course Title: Geriatric Rehab 104 – Evaluation of the Acute and Medically Complex Patient

Course Description: Geriatric Rehab 104, Evaluation of the Acute and Medically Complex Patient, is a 3-hour course designed for the clinician working in geriatrics in the acute care environment. This course will cover evaluation and systems intake and chart review in the acute care environment and move to explore other medical issues commonly seen in the geriatric/acute care environment. This clinically-relevant information will make the clinician better suited to design treatment interventions and help to develop a more effective plan of care while treating and managing the patient with complex medical conditions.

Target Audience: OT / OTA and other healthcare professionals

Course Type: Video vs. Text-based

Educational Level: Beginner, Intermediate, Advanced

CE Hours: 3 contact hour / .3 ceu

Course Prerequisites: None

Course Author / Instructor: Guccione, PT, PhD, DPT / Brown, MS, OTR/L, CHT

Learning Objectives:

- Understand the importance of the chart review in the evaluation of the acute and medically complex patient
- List 5 causes and clinical signs of electrolyte abnormality
- Understand the causes and signs of acid-base imbalances
- Outline the process of completing a systems review of the patient
- Become familiar with signs and symptoms of nutritional deficiency
- Outline signs associated with coronary artery disease and heart failure
- Outline signs associated with sepsis, vertigo, dehydration and metabolic syndrome

Agenda:

Hour #1
