AOTA Approved Provider #4023

**Course Title:** Stroke Rehab 144

**Course Subtitles:** CVA – Stroke Insights for the Rehab Professional

**Course Description:** Stroke Rehab 144 is a 1-hour seminar which provides review of what a stroke is as well as current data regarding the frequency and types of cerebrovascular accidents. Through use of still and active pictures with discussion, details are provided on medical advances for care, signs and symptoms to recognize a stroke, as well as how to interpret medical scoring to prepare for rehabilitation evaluation and treatment. Fast paced with review intermixed, a medical case study is utilized to challenge the student's understanding and retention of the educated material to apply immediately to their practice.

**Target Audience:** OT/OTA's, PT/PTA's

**Course Length:** 1 hour

**Course Format:** Audiovisual presentation with PDF handout

**Course Authors:** Lindsey Butkus, OTR/L

**Educational Level:** Introductory, Intermediate, Advanced

The course is written at the intermediate level, but learners of all levels will benefit from the information.

**Course Objectives:**

At the end of the course, participants will be able to:

- Describe current stroke statistics and trends within the US
- Discuss the difference between Ischemic stroke, Hemorrhagic stroke and TIA
- List 5 preventable causes of strokes
- Describe 3 key methods for the prevention of strokes
- Describe 3 types of medical intervention based on classification of stroke

**Outline of Content:**

**Hour #1**

Stroke Incidence and Prevalence in the US

Types of Stroke

Mechanics and Effects of Stroke: basic brain anatomy and lasting effects of CVA

Signs and Symptoms of Strokes

Risk Factors: preventable & uncontrollable

Stroke Prevention  
Medical Intervention  
Interpretation of medical scoring – NIHSS  
Summary
