AOTA Approved Provider #4023

Course Title: OT Analysis and Group Process 101

Sub-Title: Occupational Analysis and Group Process

Course Description: OT Analysis and Group Process 101, Occupational Analysis and Group Process, is a 1-hour course designed for the clinician interested in learning more about group process and how the occupational therapy practice framework (OTPF) can be used as a tool for developing and leading groups which address occupational needs. This course provides an overview of group process, including the stages and types of groups as well as how the OTPF can assist the clinician in analyzing activities for clinical application. Key terminology will be presented along with a variety of information including the basic concepts of group processes and dynamics as it relates to occupational therapy intervention. At the end of this lesson, the learner will have a greater understanding of group process and the use of the OTPF.

Target Audience: OT/OTA

Course Length: 1 hour

Course Author/Instructor: Solomon, MHS, OTR/L, O'Brien PhD, OTR/L and / Brown, MS, OTR/L, CHT

Educational Level: Introductory, Intermediate, Advanced

The course is written at the intermediate level, but learners of all levels will benefit from the information.

Course Objectives:

At the conclusion of the course, participants will be able to:

- Understand how the occupational therapy practice framework (OTPF) may structure activity analysis for intervention
- Define terms from the OTPF as they are used in activity analysis
