

Course Title: Acute Care 105 – Gastrointestinal System

Course Description:

Source: Acute Care Handbook for Physical Therapists 4th by Paz and West

Source Description: Familiarize yourself with the acute care environment with this essential guide to physical therapy practice in an acute care setting. Acute Care Handbook for Physical Therapists, 4th Edition helps you understand and interpret hospital protocol, safety, medical-surgical ‘lingo’, and the many aspects of patient care from the emergency department to the intensive care unit to the general ward. This restructured new edition streamlines the text into four parts— Introduction, Systems, Diagnoses, and Interventions to make the book even easier to use as a quick reference. Intervention algorithms, updated illustrations, and language consistent with the ICF model all help you digest new information and become familiar with new terminology. This comprehensive resource is just what you need to better manage the specific needs of your patients in the complex acute care environment. See an outline of course content for additional information.

Target Audience: OT / OTA and other healthcare professionals

Course Type: Video vs. Text-based

Educational Level: Beginner, Intermediate, Advanced

CE Hours: 2 contact hour / .2 ceu

Course Prerequisites: None

Course Author / Instructor: Rene Padilla, MS, OTR/L, Sue Byers-Connon, BA, COTA/L, ROH and Helene Lohman, MA, OTD, OTR/L / Brown, MS, OTR/L, CHT
