AOTA Approved Provider #4023

Course Title: Cardiopulmonary 107

Course Subtitle: Patient Education

Course Description: Cardiopulmonary 107, Patient Education, is a 1-hour course designed for the beginning to intermediate clinician interested in understanding the principles and practice of effective patient education. Various learning theories, needs assessments, and a description of patient education methods and materials will all be reviewed and highlighted as it relates to the patient with cardiopulmonary needs. Understanding the importance of patient education is paramount for effective treatment planning and will influence patient perception of their diagnosis, enhance decision making, improve quality of life, reduce overall health-care costs and disability.

Target Audience: OT/OTA

Course Length: 1 hour

Course Author/Instructor: Frownfelter, PT, DPT, MA CCS, RRT, FCCP and Dean, PhD, PT / Brown, MS, OTR/L, CHT

Educational Level: Introductory, Intermediate, Advanced

Course Objectives:

At the end of this course, participants will be able to:

- Describe the benefits of patient education and the impact it has on health-care costs
- Contrast and compare a variety of teaching methods used in patient education
- Describe the various aspects of planning for patient education
- Describe concepts of adult learning theories and models
- Examine ways to evaluate the effectiveness of patient education
