AOTA Approved Provider #4023

**Course Title:** Pediatrics 214

**Course Subtitle:** Mobility

**Source:** Occupational Therapy for Children and Adolescents, 7th Edition, by Jane Case-Smith EdD, OTR/L, FAOTA and Jane Clifford O'Brien, PhD, OTR/L

**Source Description:** Focusing on children from infancy to adolescence, Occupational Therapy for Children and Adolescents, 7th Edition provides comprehensive, full-color coverage of pediatric conditions and treatment techniques in all settings. Its emphasis on evidence-based practice includes updated references, research notes, and explanations of the evidentiary basis for specific interventions. And coverage of new research and theories, new techniques, and current trends, with additional case studies, keeps you in step with the latest advances in pediatric OT practice. Written by educators Jane Case-Smith and Jane Clifford O'Brien, this text is the Number One book in pediatric OT!

See course outline below for details and inclusive content in Pediatrics 214 course.

**Target Audience:** OT/OTA

**Course Length:** 2 hours

**Course Author/Instructor:** Jane Case-Smith EdD, OTR/L, FAOTA and Jane Clifford O'Brien, PhD, OTR/L / Brown, MS, OTR/L

**Educational Level:** Introductory, Intermediate, Advanced

**Course Objectives:**

At the end of the course, participants will be able to:

- Describe 5 ways that mobility is important to a young child's development
- Examine 5 factors that should be considered during an evaluation for seating and mobility equipment
- Summarize 3 ways that mobility is assessed and categorized for different levels of motor function
- List 4 alternative methods of mobility appropriate to meet the child's developmental and functional needs
- Research and describe what power mobility devices are currently available
- Examine how OTs and family determine the most appropriate device
- Describe how technology is used to assess seating and positioning
- List 5 devices that are available to children with unique seating and position needs

- Summarize how positioning and seating affect function and successful use of a mobility device
- Describe how biomechanical principles are applied to position and seating

### **Outline of Content:**

#### **Hour #1**

Developmental Theory of Mobility  
Impaired Mobility  
Self-Initiated Mobility  
Augmentative Mobility  
Assessment and Intervention  
Classification of Mobility Skills

#### **Hour #2**

Mobility Assessment  
Mobility Devices  
Wheeled Mobility Systems  
Transportation of Mobility Systems  
Factors That Influence the Successful Use of Mobility Devices  
Summary

### **Instructional Methods and Formats:**

Online course available 24/7 at [www.OnlineCE.com](http://www.OnlineCE.com) includes PDF downloadable course. See course formats for additional details.

### **Course Completion Requirements:**

A minimum passing score of 100% is required for course completion. You will have as many attempts as needed until your passing score of 100% is achieved. Upon successful completion of course, you will receive your certificate of completion and AOTA eligible CEUs.

### **AOTA Classification Codes:**

- Category 1: Domain of OT
- Category 2: Occupational Therapy Process
- Category 3: Professional Issues

### **Additional Policies:**

OnlineCE Policies are available by clicking on the tab – Policies – located in the left-hand navigation bar.
