AOTA Approved Provider #4023

Course Title: Shoulder Rehab 113

Sub-Title: Total Shoulder Replacements

Course Description: Shoulder Rehab 113, Total Shoulder Replacements, is a 2-hour course designed for the clinician working with patients with total shoulder replacement. This course outlines the variety of pathologic conditions encountered in arthritic processes involving the shoulder and details special surgical techniques that are required with each diagnosis. By having a more detailed understanding of the implications and techniques used for treatment, the clinician will be better equipped to design a safe and effective rehabilitation program with therapy goals that are achievable.

Target Audience: OT/OTA

Course Length: 2 hours

Course Author/Instructor: Donatelli, PT, PhD and Brown, MS, OTR/L, CHT

Educational Level: Introductory, Intermediate, Advanced

The course is written at the intermediate level, but learners of all levels will benefit from the information.

Course Objectives:

At the conclusion of the course, participants will be able to:

- List 5 clinical considerations for total shoulder replacement
- Outline components for a comprehensive examination of the shoulder
- Describe and differentiate pathological conditions about the shoulder
- Outline rehabilitation protocols and categories of rehab following shoulder arthroplasty
