

Course Title: Stroke Rehab 114– Impact of Neurobehavioral Deficits on Activities of Daily Living

Course Description:

Source: Stroke Rehabilitation, 4th ed by Gillen

Source Description: Learn to confidently manage the growing number of stroke rehabilitation clients with Gillen’s Stroke Rehabilitation: A Function-Based Approach, 4th Edition. Using a holistic and multidisciplinary approach, this text remains the only comprehensive, evidence-based stroke rehabilitation resource for occupational therapists. The new edition has been extensively updated with the latest information, along with more evidence-based research added to every chapter. As with previous editions, this comprehensive reference uses an application-based method that integrates background medical information, samples of functionally based evaluations, and current treatment techniques and intervention strategies. Key features include: Evidence-based clinical trials and outcome studies, survivor's perspectives, case studies, and a multidisciplinary approach highlights discipline-specific distinctions in stroke rehabilitation among occupation and physical therapists, physicians, and speech-language pathologists. See an outline of course content for additional information.

Target Audience: OT / OTA and other healthcare professionals

Course Type: Video vs. Text-based

Educational Level: Beginner, Intermediate, Advanced

CE Hours: 2 contact hour / .2 ceu

Course Prerequisites: None

Course Author / Instructor: Glen Gillen, EdD, OTR, FAOTA/ Brown, MS, OTR/L, CHT

Learning Objectives:

- Establish a relationship between neurobehavioral concepts and task performance
- Apply the theory on which the Árnadóttir OT-ADL Neurobehavioral Evaluation (A-ONE) is based as a structure for clinical observations of stroke patients
- Provide conceptual and operational definitions for neurobehavioral impairments and disability
- Apply clinical reasoning skills based on the A-ONE theory for hypothesis testing
- Relate the International Classification of Functioning, Disability and Health and the OT Practice Framework to the concepts used in the A-ONE
- Provide examples of how strokes can cause different patterns of impairments affecting task performance

Agenda:

Hour #1

Introduction
Activities of Daily Living

Hour #2

Neurobehavior: The process of linking occupation to neuronal activity
Detecting the Effect of Neurobehavioral Deficits on Activity Performance Processing During Task
Performance

Hour #3

Dysfunction of the Activities of Daily Living Area of Occupation Due to Stroke Patterns of Impairments
Resulting From Strokes

Hour #4

Clinical Reasoning Involved in Using the A-One Assessment Methods
Summary

Course Completion Requirements:

A passing score of 100% is required for course completion. You will have as many attempts as needed until your passing score of 100% is achieved. Upon successful completion of course and completing a satisfaction survey, you will receive your certificate of completion.

Additional Course Information

Course Registration: Register for Free at www.OnlineCE.com. Once registered, you can begin to purchase courses. Contact info@onlinece.com for special needs requests and assistance.

Refund Policy: There will be no refunds for courses taken at OnlineCE.com or monies deposited into My CE Bank. Any money on account will be used for taking future courses. If you start a course in error, or if you are dissatisfied with a course, please contact us in the first part of the course and we will void the course and you can select a replacement course.

Cancellation Policy: Only available courses are offered online and on-demand and available for purchase. No registration fees are collected for courses that are not provided on-demand. Due to the online and on demand format, courses are not cancelled.

Course Date and Location: This is an independent course that is available 24/7 on-demand at www.OnlineCE.com.

Required Materials and Equipment: Courses offered on OnlineCE.com can be accessed on any type of computer or device. No special software is required but we do recommend the use of the Chrome Browser (recommended, not required). All course materials are contained within the courses and no prerequisites are required.

OnlineCE.com is an AOTA Approved Provider of professional development, #4023. Course approval ID#4023. This distance learning-independent course is offered at .2 CEUs. Intermediate educational level, category foundational knowledge. AOTA does not endorse specific course content, products, or clinical procedures.

OnlineCE.com is an NBCOT Professional Development Provider. This course is offered for 2.50 NBCOT PDUs. NBCOT® is a registered trademark of the National Board for Certification in Occupational Therapy.
